COMPACT LED ILLUMINATED WARNING SIGNS

Compact, energy efficient and maintenance friendly LED illuminated warning signs for medical or general information signage applications.

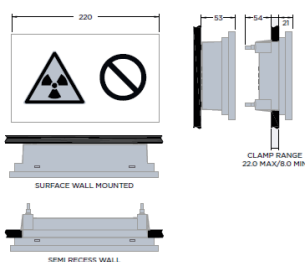

Available in semi-recessed and surface mounted versions, with or without a front fascia, these signs present a sleek, new approach to information signage, or choose Style S, surface-mounted, full-depth cover, for a more conventional signage appearance.

Each style is IP20 rated and illuminated by 2 LED strips and ∇ compliant, designating them as suitable for mounting on normally flammable surfaces.

Style G

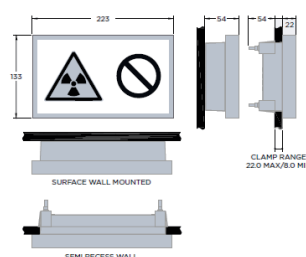

Flush Mounted, white back-box, no fascia
Part Number:
PHP-222-ARCG-W-LA-W, Legend " "

Style F

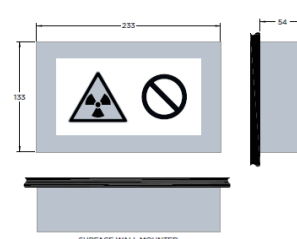

Flush or Surface Mounted with white back
box and front fascia
Part Number:
PHP-222-ARCF-W-LA-W, Legend " "

Style S

Surface Mounted with white back-box &
fascia
Part Number:
PHP-222-ARCS-W-LA-W, Legend " "

Typical Compact Legends
